## Register & Login

To be able to create team race cups, to join team race cups and to score races user must be registered and logged in.

To create a team race cup the user must be host or must be committee member.

To become host and or committee member modify your profile in the sailors module (click "Sailors" in the menu, the blue field)

## Create a team race cup

The host module as well as the committee module have a link to the team race cup editor.

Host module => click "Hosts" in the menu. (the orange field)

committee module => click "Committee" in the menu (the purple field)

## admiral host

**Virtual Skipper upload courses**

**Sail Simulator upload courses**

**Team Race Cup**

Give the team race cup a name, and set the number of participants.  
(Version 0 only can handle 4, 6 or 8 participants.)

By creating the team race cup the races are set up based on the number of participants.  
Round robin means that all participants sail team races in every possible constellation.

Teamrace Cup Name

Number of participants

## ***Round Robin Team Race Cup***

Enter to RRTC in the Sailors module.

Click team race cup...

## admiral 1

available Round Robin Teamrace Cups

CUP	BOATS	DATE	PARTICIPANTS
<b>Some irrelevant Cup</b>	6	2011-03-11 14:53:49	6 boats full
<b>Team Race Cup Test II</b>	6	2011-03-13 22:23:17	1 boats <b>join</b>
<b>Team Race Cup Test III</b>	6	2011-03-13 22:23:59	1 boats <b>join</b>

© Theeuwes de Jong Last up-date march 13 th 2011

Click a cup or join ... a cup that is full will not take more participants.

Date would be the date a cup takes place. (Version 0 will see date as date and time the cup was created.. )

Clicking a cup will open up the seeding table (participants list)

9	admiral, crosswave, netpir,	vs	mistral, miniden, reric,		Positions N.A.
10	admiral, reric, netpir,	vs	mistral, miniden, crosswave,		Positions N.A.

## Score Race 8

Race 8 was won by **RED** / **BLEU**

© Theeuwes de Jong Last up-date march 13 th 2011

Results are registered on a per team basis, it is not possible to valuate a skippers individual effort by finishing position. Tactics may dictate sacrifices in order to achieve a better overall result.

Individual results become then measurable if we accept that skippers share the team effort. A skipper that is statistically more often part of a winning team is a better skipper than one that does not.

For now results are evaluated on a per cup bases, as soon as some test results are in, overall results become available also.

As with individual skipper the same can be done for pairs and threesomes and foursomes, as part of bigger teams. A pair of skipper may be more often part of a winning 3 boat team as an other pair of skipper. Here too evaluation will be available once results become available.
